The VoW Project.

Volunteering for a sustainable World! Increasing volunteering skills for global sustainability through experience in the Fair Trade sector - *Multiplier Event*

ABOUT THE VOW PROJECT

The VoW project prepares European citizens to deal actively with relevant aspects of the global environmental crisis that the planet is facing and

- **addresses the vast sensitive area of volunteering**
- **shares necessary knowledge and skills**
- **improves the ability to be a co-protagonist of actions that contribute to spreading positive values, choices and behaviors**

At the heart of the commitment to global sustainability, and so also in Fair Trade, there is one key factor: people of any age and condition, who choose to act responsibly, to be protagonists, changing their lifestyle and becoming promoters of ethical values and practices in their communities. Volunteering in Europe has a strong collective impact in all areas in which it operates, involving millions of people.
